

Tray Liners & Barrier Paper

Ideal for Direct Food Contact

Perfect for a wide range of food packaging applications, including:

- Liners or inserts for pizza boxes (to help prevent mineral oil migration)
- Tray liners – chips, fries or mayonnaise can be placed directly onto the paper
- Wrapping paper for bakeries, particularly suitable for cream cakes and pastries with a high fat content (eliminating the need for additional cream protection paper)

Food can be placed directly onto the printed side of the paper without concern. Our specially developed ink system is ISEGA-certified and approved for direct food contact.

Product Features

- Available in a wide range of sizes
- Small production runs available on request
- 45 g/m² paper in white or brown
- Wet-strength paper
- Greaseproof (KIT 6)
- Printable in up to 4 colours
